Harold J. Nichols
Mayor of Rutland 1965-1971

This report is dedicated in grateful memory to Harold J. Nichols, Friend, Mayor of the City of Rutland, Vermont. His leadership and dedication to the City earned him the respect and admiration of all the citizens of this community.

Mayor's Message

To the Honorable Board of Aldermen and the Citizens of Rutland:

This is the ninety-fifth annual report of the City of Rutland. Regular readers of these publications will immediately notice several changes. We have gone to a larger paper size, which is slightly more economical and allows the use of two column text. This should make the report easier to read and visually more interesting. We have also included several photographs within the text which make the report more interesting and helps to convey to you, our constituents, what it is that the City of Rutland does. The changes in the report are also intended to be symbolic of changes in the way our city operates — changes which began in the last half of fiscal year 1986-87.

During the last year Rutland established a formal sister-city relationship with the community of Ishidoriya, Japan. The two communities have already exchanged delegations, and look forward to student and cultural exchanges in the near future.

The year saw the passing of two prominent citizens, each of whom contributed greatly to the city through personal deeds and public service. Wayne Edson was a former member of the Planning Commission and a long-time member of the Board of Zoning Adjustment. He was ac-

tively concerned with the future of our community, and will be sorely missed. Mayor Harold Nichols was one of the preeminent citizens of Rutland, whose administration spanned an era of great progress in our community. His dedication to public service continued until his passing, as a member and then a member emeritus of the Planning Commission. This annual report is dedicated to his memory.

Most of the reports in this document contain some note of thanks to the individuals who supported the efforts of the author. I would be remiss if I did not thank the employees and volunteers who collectively contribute to the delivery of services which is the purpose of this government. Special thanks also to the supervisors and department heads who so professionally plan and manage these efforts.

Finally, I would like to express my deepest appreciation for the guidance and support I have received from my predecessor, Jack Daley. Jack's special mix of good humor, fairness and compassion is a legacy worthy of admiration.

I urge all of us to look to the challenges ahead, and to meet them boldly. The people of this community deserve nothing less.

Board President's Report

Thomas L. Donahue, Board President

To the Citizens of Rutland:

I am honored to be able to address you this year as President of the Board of Aldermen.

I would like to take this opportunity to welcome our new mayor, aldermen and our many new department heads and employees to city hall.

The coming year should prove to be a very exciting one for the City of Rutland considering all the many changes our municipal government has undergone in the past year. The restructuring of departments from the mayors office down accomplished this year will allow us to enter 1988 with a fully prepared team of experts ready to tackle the many day to day challenges that lie ahead.

In 1987 the board completed the final stages in a long process to revise our city charter. We accepted a fabulous new fire truck capable of protecting our city residents in taller buildings. We christened two new soft ball fields which were utilized to their maximum potential this past season. And we dedicated the newly expanded sewage treatment plant which we anxiously await coming on line to pave the way for further development within the city. Due to the opening of the southwest bypass, the completion of the South Main St. widening project and a traffic study carried out by our own Police Department, some of the city traffic congestion has finally been relieved. And thanks to careful spending and close scrutiny of city budgets for the fiscal year, there was no increase in the tax rate or the charter limit and city property taxes

were stabilized.

The Japan delegation represented our city well in Ishidoriya and returned with high hopes for a student exchange program and a sister state agreement.

And speaking of students, the Aldermen and Mayor's office worked together successfully with the Rutland City Board of School Commissioners on various projects last year.

Rutland City can be very proud of the members of the Board of Aldermen. The board has unselfishly dedicated its efforts to countless projects last year with enthusiasm and an open mind and has often had to sacrifice professional as well as personal time to get the job done. I would like to personally thank all the board members who served on the numerous committees during the year. Due to the extra efforts of the board it was not necessary to form a single ad-hoc committee to handle any special projects last year.

I would also like to thank Kevin Mullin for acting as our representative to the Rutland Regional Commission and all the members from the public who served on the Howe Scale Study Committee. Due to their efforts and the members of the board who served on the committee for years, the project remained alive and resulted in the eventual sale of the property for commercial use.

I would like to extend a special thanks to our City Clerk, Rosemary Finley for doing her usual exemplary job as clerk of the board.

Seated: Patricia Donnelly; Linda Welch; Rosemary Finley, City Clerk
 Standing: Robert Stafford; Sigismund Wysolmerski; John Cassarino; Arthur Crowley, Jr.; Thomas Donahue, President; Thomas Macaulay; Barry Keefe; Nicholas Barone; Laurent LaMontagne

Board of Aldermen

Regular meetings of the Board of Aldermen are held on the first and third Mondays of each month at 7:30pm in City Council Chambers.

Audit Report

Reports of the audits conducted by the City of Rutland and the Rutland City School Department are included in the City of Rutland Finan-

cial Statement which is a separate document and is available from the Office of the City Treasurer.

Report of the City Assessor

Lewis F. Latuch, Assessor

To the Honorable Board of Aldermen and the Citizens of the City of Rutland:

It is my pleasure to submit to you the annual report of the Assessor's office for the fiscal year ending June 30, 1987.

It continues to be a very busy year for this office. The reappraisal of the city residential properties is progressing well. We have divided the city into 7 residential neighborhoods. At the present time we have three data collectors working on this project. As of June 30, 1987 we have completed three sections and are well into the 4th section.

We are in the process of reviewing data relating to commercial properties in order to solicit outside consultant-appraisers to assist in reappraising all of the commercial properties in the City of Rutland. We anticipate this project will be underway by August 20, 1987.

There continues to be considerable new construction as well as remodeling and building improvements throughout the city. The Grand List for April 1, 1987 increased a total of approximately \$23,000,000. The value of Personal Property increased approximately \$3,500,000. The value of Real Estate increased approximately \$19,500,000.

In as much as I have been your assessor for about 3½ months, I take this opportunity to thank the Associate Assessor and our secretary for their cooperation and assistance in fulfilling the duties of this office. I also wish to thank Mayor Wennberg and all the City Department Heads and employees for their support of this office.

Report of the Building Inspector/Zoning Administrator

John J. Kollmer, Building Inspector/Zoning Administrator

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit to you the Annual Report of the activities of the Building Inspector/Zoning Administrator's office for the Fiscal Year ending June 30, 1987.

I wish to thank the Mayor, Board of Aldermen, Board of Zoning Adjustment, the Planning Commission and all the department heads and their departments for their cooperation and assistance.

INSPECTIONS PERFORMED:

1131	Certificates of Occupancy
31	Public Hearings
21	Sign Permits Issued

BUILDING AND ZONING PERMITS ISSUED:

46	Single Family Dwellings	\$ 2,774,070.
5	Multi-Family (2 or more units)	410,000.
1	Condominium Complex	2,250,000.
18	Residential	
20	Commercial	
9	Commercial Buildings	1,564,800.
114	Residential Renovations	611,149.
56	Commercial Renovations	2,967,616.
24	Garages	242,479.
6	Swimming Pools	60,015.
3	Mobile Home Pads	44,940.
6	Demolitions	- - -
270		\$ 10,925,069.

Report of the City Attorney

Henry C. Brislin, City Attorney

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The past year has been a very busy one for the City Attorney's Office. It has seen more utilization of the services of the Assistant City Attorney than ever before.

The Charter and Ordinance Committee did an extensive rewrite of the Charter and, with the service of John Holler, prepared the changes, received voter and legislative approval. The Committee, spearheaded by Alderman Donahue, did an excellent job in record time, working closely with Department Heads and the School Board.

The Office was involved in litigation involving Appeals from the Zoning Board and Tax Appeals. There were also suits involving Rutland Town and the providing of water and sewer services.

The City also employed specialists in certain aspects of legal work. John Hansen is representing the City in Act 250 matters involving Mall

development in the Town of Rutland, and which I worked with John, he provided expertise and most importantly time that I did not have.

The City also employed a professional labor expert to do Union negotiations. I have worked hand in hand with him, but his experience has been invaluable.

Both myself and John Holler have been involved in personnel matters. A case involving a police officer has been in Superior and District Court, and much time and effort of the entire office has been devoted to this.

The office utilized Vermont Law School students to aid us in research and drafting. This service has been valuable to the City and to the students and we hope to be able to continue this adjunct to the students' legal education.

Office of the City Clerk

Rosemary Finley, City Clerk

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The following is the Annual Report for the Office of City Clerk for the year ending June 30, 1987.

MEETINGS AND MINUTES

Minutes of the following meetings were recorded:

Board of Aldermen	31
Board of Finance	39
Board of Highway Commissioners	14
Board for Abatement of Taxes	6
Board of Civil Authority/Elections	5

TAX APPEALS

The Board of Civil Authority comprised of the Mayor, Aldermen, Justices of the Peace and the City Clerk heard and rendered decisions on 43 Tax Appeals.

LAND RECORDS

Eleven books (9552 pages) of land records were recorded and microfilmed during the year.

LICENSES AND PERMITS

The following licenses and permits have been processed and issued by this office to date for the current license year (unless otherwise noted):

Beverage Licenses	102
First Class — 62	
Second Class — 40

Residents	267
Non-Residents	563
Deaths registered in 1986	576
Residents	248
Non-Residents	328
Marriages registered in 1986	221

CHARTER AMENDMENTS

At the Annual City Election, held March 3, 1987, the voters of the City of Rutland approved 36 amendments to the City Charter. The amendments were initiated by the Charter and Ordinance Committee of the Board of Aldermen with the assistance to Assistant City Attorney John Holler. A great deal of effort went into this comprehensive revision to the Charter. Voters were permitted to vote on each amendment separately and all were approved. It is encouraging to note that the margin by which each of the 36 amendments passed reflected the fact that the voters were very selective in casting their ballots and had taken the time to study each question before voting. Thirty-five of the Charter Amendments were subsequently ratified by the General Assembly of the State of Vermont and signed by Governor Kunin. The only Amendment not approved by the State was the procedure to recall elected officials. A revised City Charter incorporating the 35 approved amendments will soon be published and available to the public.

COMPUTERIZATION

In January 1987, the Board of Aldermen and Mayor Daley approved a transfer of funds for the purchase of a computer terminal for the City Clerk's Office. This transfer also included additional equipment and software that will enable installation of additional terminals for other departments and a word processing package for use by all departments. Our equipment has arrived and we face a very busy year of converting many of our time-consuming record-keeping responsibilities to a computerized system. Computerization of many of our functions will enable us to handle the constant increasing workload of this office without the need for additional personnel. Computerization will also greatly increase the speed of retrieval of records, especially in the indexing of Aldermanic actions.

CITY CLERK'S OFFICE STAFF

In January 1987, Mary Rose Tweddle retired after 20 years of dedicated service to the City of Rutland. She is greatly missed by her co-workers in City Hall and the members of the public who had come to rely on her knowledge of City Government and her eagerness to assist in any endeavor. In July of 1986, Sharon Mazzariello joined the staff of the Clerk's Office to help fill the void left by Mrs. Tweddle's retirement.

I would like to thank former Mayor Daley, Mayor Wennberg, the Board of Aldermen, all City Departments and the staff of the City Clerk's Office for their continued support and assistance.

Report of the City Treasurer

R. J. Graves, City Treasurer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

Presented under separate cover is the 1987 financial report, setting forth the financial position of the City of Rutland at the close of the fiscal year ended June 30, 1987.

All debt requirements of the City were met promptly during the year. Serial bonds totaling \$309,000.00 were retired. Combined interest payments on the bonded debt amounted to \$321,126.50.

The City of Rutland General Fund, as a result of operations, has a fund balance of \$323,653.00. The City of Rutland Schools, as a result of operations, has a fund balance of \$731,600.00.

This was the last fiscal year for Federal Revenue Sharing Funds. During the year the City received a total of \$101,006.00 from the Federal Government. The interest earned on those funds amounted to \$15,286.79.

Community Development Department

Alexander J. Shak, Community Development Director

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

As a recent addition to City Government, I am very excited about the development opportunities which currently exist for the City of Rutland.

This Department continues to actively participate in the Rutland West Neighborhood Housing Services program. Plans are currently being finalized to seek additional funds for this important housing program which serves residents of the Northwestern area of the City.

In cooperation with the Planning Commission and the Board of Aldermen, this Department will work diligently to review and revise as needed, the City's land use laws and ordinances. This important effort will in the end result, provide for the protection of our neighborhoods and promote sound and orderly development.

The Community Development Department is also working closely with the Rutland Industrial Development Corporation and our neighboring communities to attract new industrial enterprises to the region and the City. We intend to work closely with the owners of the Howe Scale complex so that the full potential of that facility can be exploited for industrial and commercial purposes.

The next year will be an exciting one for development matters in the City. Major efforts are underway in the area of transportation, commercial development, and housing. I would like to take this opportunity to thank the Mayor and the Board of Aldermen for their support and assistance on my behalf.

Constable and Tax Collector Report

Vernon Richards, Constable and Tax Collector

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

As City Constable and Tax Collector of the City of Rutland, I am pleased to submit for your consideration the financial report of this office for the period July 1, 1986 to June 30, 1987.

Real Estate and personal property taxes collected during the period amounted to \$563,503.63.

General bills include water and sewer installations done by the City, sidewalk and curb improvements, tree removals and other expenses

totaled \$3,795.92.

Water and sewer assessments amounted to \$67,524.51.

The cumulative total for all monies collected by this office for this period was \$634,824.06.

May I take this opportunity to thank sincerely the Honorable Mayor, city Attorney, other City officials and employees for their cooperative efforts during the past year.

Emergency Management Report

Aldo M. Manfredi, Director, Emergency Management

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

This past year the Emergency Management Department was activated for general alarm fires, winter storms, Spring flooding and during the demolishing of a building in downtown Rutland. The Salvation Army rendered assistance at the major fires. The Red Cross relocated some occupants living in the apartment adjacent to the building being demolished.

I attended many meetings and several training sessions at the State Emergency Management headquarters this past year. The training sessions dealing with various emergency subjects originated from the Emergency Management Training Institute at Emmitsburg, Maryland via satellite and are transmitted to TV sets in all states. One can be an active participant by use of a toll free phone call to the center and asking questions of the panel during the program.

In June a Test Exercise was held on Park Street, near the Fairgrounds, simulating a truck containing various chemicals involved with a train with several simulated injured persons. This test was conducted to test the response of Police, Fire, Public Works and Ambulance Serv-

ice personnel, also, the Regional Medical Center. Assistance was received from the Vermont State Emergency Management Department, Vermont Railway and Agway Company (Park Street). A critique was held and the test was judged a success.

The School Crossing Guard Program completed another year and, at this time, I want to thank each Guard for their devotion and dedication to duty. At a time when it is becoming difficult to find people to do this job it is appreciated even more.

The Safety Program Committee conducted inspections of various departments and interviews of injured employees after Injury Reports were received. This Program is continuing to show improvement in less reported injuries and fine cooperation from all City employees.

In closing, I would like to thank the Mayor, the Board of Aldermen, City Officials and employees, volunteers, the State Emergency Management staff and the news media for the cooperation given to this office in the past year.

Ripley Dam—West of River St. Bridge during flooding in April 1987.

Fire Department

Gerald T. Lloyd, Chief Engineer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit herewith the Annual Report of the activities of the Rutland Fire Department. During the past year, the Fire Prevention Department conducted regular safety inspections in our continuing efforts to make our city as safe as possible.

Our Fire Pre-Plan Program which provides fire fighting strategies, should an emergency occur in a high rise occupancy or high hazard building, was reviewed and brought up-to-date.

Twenty-six department members attended educational facilities in our ongoing program to improve their fire fighting and emergency medical skills.

In May of this year, Grumman Emergency Products of Roanoke, Virginia delivered to Rutland our new Quint 102 ft. Aerial Platform Tower. With the addition of this new equipment in our inventory, our fire fighting needs have been greatly improved. This department now has the capabilities to reach all floors of high rise buildings located in our city for fire suppression and rescue needs. This vehicle was dedicated to the memory of the late Chief Richard M. Barron during the 98th Vermont State Fire Fighters Conference and Convention held here in Rut-

land on July 31, August 1 and August 2. The Convention attracted fire fighters and their families from throughout New England, New York, Pennsylvania and New Jersey. The festivities concluded with a giant downtown parade on Sunday, August 2nd that featured 110 fire fighting vehicles, 15 marching units and 10 bands.

Your Fire Department responded to 895 fire calls, an increase of 117 calls. Also 34 hazardous material incidents. Rescue 8 responded to 1314 rescue paramedic calls and the department responded to 257 citizen assistance calls.

Despite the increase in alarms, actual fire losses in the city during the year reached a 7 year low. We responded to 2 general alarms and for the first time in 8 years, Rutland suffered a fire related fatality. Our investigation revealed no fire/smoke detectors were in place at the time of this incident.

As a consequence, we have stepped up our education and prevention programs to bring to the attention of the public, the need for smoke detection in their places of residence.

During the year past, 1st Asst. Chief Richard Lovett, the Department Building and Maintenance Officer; Capt. Charles Taylor, Training

and Pre-Plan Fire Officer; and 1st Asst. Chief Francis Walsh, Departmental Motor Officer retired from this department. Their contributions in the field of fire prevention and fire fighting will always be appreciated.

We, from the fire service, wish them well during their retirement years.

I wish to thank members of this department, Mayor Wennberg, members of the City Council and other department heads for their cooperation and assistance during the past year.

Grand Juror

John C. Holler, City Grand Juror

To the Honorable Board of Aldermen and Citizens of City of Rutland:

It is my pleasure to submit the annual report of the City Grand Juror's Office for fiscal year ending June 30, 1987.

During the past year, this office has prosecuted approximately five hundred misdemeanor offenses, and collected \$51,098.60 in criminal fines, and assisted collecting \$59,718.00 in parking fines. In addition, the Grand Juror worked closely with the Charter and Ordinance Committee to extensively re-write the City Charter which was approved by a majority of voters, and signed into law by Governor Kunin. The revisions to the charter reflect changes in state law and the need to clarify many sections to improve governmental efficiency. I would like to thank President Donahue for his many hours of hard work on this project.

At the direction of Mayor Wennberg, this office undertook a six-year study to determine the practicality and economy of the Grand Juror's Office. The study revealed the following important facts:

- 1) No other City or town Grand Juror prosecutes state misdemeanor violations.
- 2) The City of Rutland received only \$355.00 per year for prosecuting about 500 state misdemeanors.

- 3) That about 98% of the Grand Juror's time is devoted to prosecuting state misdemeanors for \$355.00 in revenue.

- 4) That the bulk of revenue generated by the Grand Juror in fines would continue if Rutland County State's Attorney prosecuted the cases.

- 5) That in the near future, the Grand Juror's office would have to hire an additional prosecutor and secretary to handle the ever-increasing caseload.

The study concluded that for reasons of economy, efficiency and productivity, the Grand Juror should discontinue prosecuting state misdemeanors. This would allow the Grand Juror time to prosecute local ordinance violations, such as the enforcement of building codes, as well as assist the City Attorney in non-criminal matters. Mayor Wennberg concurred with this recommendation and has begun to implement the plan.

Finally, this is my last report as Grand Juror as I am resigning effective August 7, 1987. I would like to thank my secretary Dorie Keller for her patience and hard work and the Rutland City Police, Mayor Wennberg, the Board of Aldermen and, above all, the citizens of Rutland City for the opportunity to serve.

Health Officer

William A. O'Rourke, Jr., M.D., Health Officer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I hereby submit the annual report of the Health Officer for the fiscal year ending June 30, 1987.

Following our recommendations to the Board of Aldermen regarding the VICON permit, the Board of Health began to direct its attention to methodologies of monitoring the solid waste facility. Although under the primary jurisdiction of the State Agency of Environmental Conservation, we propose to be actively involved.

In addition the Health Officer has maintained supervision regarding nuisance complaints, ordinance violations, public water testing, fluori-

dation, pigeon control and other problems with potential to transmit communicable disease or pose health problems to the citizens.

Special commendation to the Board of Health, Robert Beauchamp, R.Ph., Blair Campbell, DVM, and Gordon Smith, M.D. who gave freely of their time and expertise.

A monthly report of activities is submitted to the Mayor and City Council.

My appreciation to others in City Government for the cooperation especially the Animal Control Officer and the Water Treatment Manager.

Milk Inspector

William A. O'Rourke, Jr., M.D., Milk Inspector

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I respectfully submit the annual report of the Milk Inspector for the fiscal year ending June 30, 1987.

The Milk Inspector is responsible for licensing milk products distributed in the city and with the storage of these products by wholesale and retail distributors. Because milk producers are outside the city limits we have been fortunate to

obtain the correspondence of the director of the Dairy Division of the State Department of Agriculture and receive testing reports on milk products that will be distributed for retail sale. No problems have been detected over the past year.

Disposition is complementary to the office of the Health Officer and a monthly report is submitted to the Mayor and City Council.

Planning Commission

George W. Clewes, Chairman

Honorable Board of Aldermen and Citizens of the City of Rutland:

The planning Commission has worked on the implementation of regulations for Satellite Antenna control. Also, The Flood Hazard regulations have been brought up to date as required by Federal law, and we have made amendments to the Municipal Development Plan.

The members of the Planning Commission are: Mary Ann Coombs, Donald Taylor, J. Tilly

Ballard, Edwin Calcagni, David Zsido, Peter Louras and Frederick Lorman. I would like to thank them for their guidance and help over the past year. Thanks also to John Kollmer, Zoning Administrator; Jay Shak, Director of Community Development; and Representative Robert Stafford from the Board of Aldermen for their help.

Board of Zoning Adjustment

William H. Foley, Sr., Chairman

Honorable Board of Aldermen and Citizens of the City of Rutland:

The Board of Zoning Adjustment has been very busy as we have held an average of four meetings per month this past year.

I would like to bring to the attention of the voters the great need to update our zoning regulations so that they meet State law requirements.

I would like to express my appreciation to the members of the Board: Stephanie Lorentz, Dr.

MacDonald, Clifford Giffin, Tom Shortle, and George Clewes, for giving of their time so willingly.

Wayne Edson was a member of the Board until he passed away this year. We will all miss his knowledge and counsel on the Board.

Police Department

Paul R. Benson, Chief of Police

To the Honorable Board of Aldermen and the Citizens of the City of Rutland:

I respectfully submit the Annual Report of the Rutland City Police Department for the fiscal year ending June 30, 1987.

In the fiscal year 1986-87, a great deal of emphasis was placed on the continuance of our objectives of placing and obtaining accountability at all levels within the Agency. Additional efforts have been made to promote and maintain uniformity and equality within every order, policy, and procedure established and implemented by this Agency.

One of the key accomplishments was the creation of a new personnel evaluation system. It has provided for a positive identification of work habits and productivity of Agency personnel.

We have continued our efforts to involve the community in assisting this Agency in the detection and prevention of crime through such pro-

grams as Crime Stoppers, Neighborhood Watch, and Safe Haven.

This Agency has continued its war on illegal drug use and sales. This Agency was instrumental in the removal of \$1,078,688.00 (illegal street value) of drugs from or around the City of Rutland.

This Agency has strived to be responsive to the needs and demands of the community that we serve.

On behalf of the Department, I want to express our sincere appreciation for the assistance that has been extended to this Agency by the various law enforcement agencies, service organizations, and citizens.

Further, appreciation is extended to the Mayor, the Honorable Board of Aldermen, and other Department Heads and personnel for their assistance and show of support this past year.

Remarks: In October, 1986, Officer Frank Wilk and K-9 Danny and Officer John Johnson and K-9 Tubbs were certified and graduated from the 384-hour Basic Patrol Dog School. The addition of these two dogs to the K-9 Unit have provided Rutland City residents with approximately 2944 additional hours per month of on-

duty K-9 protection. The K-9 Unit uses have resulted in evidence recover and arrests that would not have been attainable without the dogs. Also, K-9 presence alone has aided in officer safety and has been a good deterrent in many different situations.

Total court cases	5
Total miles	15,500

Major problems during the year were rectified such as the pigeon and rat projects, which proved to be successful.

Complaints on wildlife in the city continue to escalate as new housing forces them to look for new habitats of which they become a nuisance. It is the homeowners' responsibility to rid the problem animal humanely.

A new animal ordinance is being compiled by the Grand Juror and myself which will cover dangerous animals more thoroughly and make the owner accountable for his/her pet.

During the year, I have received training with

N. E. Animal Control Humane Academy held at the University of New Hampshire which deals with the judicial system, rabies control, problem wildlife and damage control and other interesting courses which will benefit the citizens of Rutland.

HOW TO KEEP YOUR DOG FROM BEING A PROBLEM:

- 1) Make sure your dog is in good health.
- 2) Do not allow your dog to roam. Your dog should be either in a securely fenced in yard under supervision, or walked on a leash or on a runner/chain device.
- 3) Correct aggressive or inappropriate behavior when it starts, before it become habitual. Obedience training, your veterinarian books and animal behaviorists are all sources of help.
- 4) Make sure your pets are properly licensed and have rabies and other inoculations. April 1st is the deadline for licensing.
- 5) Dog bites must be reported to the Police and children should tell their parents immediately.

Department of Public Works

David A. Crawford, Commissioner of Public Works

To the Honorable Board of Aldermen and the Citizens of the City of Rutland:

Fiscal 1986-87 involved several personnel changes for the Public Works Department. Commissioner Gail Tirre served the community until June 1st, 1987 when David A. Crawford took over the position.

The Department was substantially reorganized with new divisions established (Sewer Collection and Equipment Maintenance). New division heads were appointed for the Streets Division, Sewer Collection Division, Water Treatment and Equipment Management.

Equipment Management received considerable attention during the year. New purchases included three new backhoes and a Vactor Catch Basin Cleaner. It is anticipated that in the coming months additional attention will be placed on equipment maintenance and replacement. The improvements started in 1986 and 1987 will reap benefits far into the future as satisfactory procedures can be put into place.

The new Sewage Treatment Plant became operational and many new people were hired for the expanded facility. The new treatment plant runs on a 7 day a week, 24 hour a day schedule.

With the new divisions established an improved recall system was instituted to answer citizen's complaints during periods when the department is not normally operating.

A landfill closure plan was developed and approved by the State. Portions of the plan were completed during 1986 and early 1987. When the new Vicon facility is operational in late 1987 the landfill will be closed.

A new system of requiring developers to post performance bonds prior to the construction of new city streets was established.

The South Main Street reconstruction project was completed. This project has greatly improved the traffic flow and safety of the street.

In 1987 and 1988 it is expected that the department will be spending a considerable effort on organizing and re-writing policies which have been in place for several years. Increased attention in personnel management will be a high priority in the next fiscal year.

A special note of thanks is extended to the Public Works Employees, Mayor, Board of Aldermen and citizens of Rutland who have assisted the department.

ENGINEERING

Warren E. Conner, City Engineer

Alan J. Shelvey, Asst. City Engineer

The Engineering staff under the direction of the City Engineer, Warren E. Conner, provides survey, design, and other engineering services for all divisions of the Department and for other departments within the city government.

As part of these services, the Engineering Division compiles and constantly updates plans and records of the water distribution system, the water treatment system including records and inspections of all sewer systems in the city's watershed, the sewer collection system, the sewage treatment plant, the city's street system and the city's sanitary landfill. The Division also reviews and oversees water and sewer designs and specifications for projects let out for bid, and for streets and utilities built by developers which are to be taken over by the city upon completion.

The Division also provides information to contractors and others concerning location of city utilities, performs all traffic engineering for the city, prepares necessary easements and executes other duties of an engineering nature as required.

The Engineering Division was involved with the following major projects during the year:

Two major subdivisions under construction in the city. The "BOMAC" development off Woodland Drive and Hilltop Terrace involves

the construction of four new city streets including water mains, and sanitary and storm sewer systems. The Stratton Estates Development off of Catherine Drive also involves the construction of four new city streets including water mains, and sanitary and storm sewer systems. All of these streets will be taken over by the city upon completion and final acceptance by the city.

The reconstruction of South Main St. from Strong's Ave. south to the city line by the Palazzi Corp. of Hookset, NH was completed in July 1987. Included in this construction were the replacement of water mains, sanitary sewer mains, sewer manholes and completely new storm sewer systems and traffic signal systems.

The Division is presently working with the Agency of Transportation on right of way acquisition for two highway projects in the city; the Dorr Drive, Ripley Road, Clement Road intersection and the reconstruction of State St. from Grove St. to Columbian Ave. The State St. project will include separation of sanitary and storm sewers, new water and sewer lines and a new bridge over East Creek. This project will be funded with 98% federal and state funds and 2% city funds with construction beginning as early as next year (1988).

The construction phase of the project to upgrade the city's wastewater treatment plant is complete and the one year performance evaluation phase has been initiated. Thus far, the new facilities are providing a much higher level of

sewage treatment than our former plant and we anticipate that this evaluation will show a significant improvement in the quality of effluent being discharged.

The upgrade of the sewer plant was done under contract to S.G. Phillips Constructors, Inc. of Waitsfield, VT.

The completion of the reconstruction of approximately 16,000 linear feet of sewer mains by the Belden Company and Cooley Company has significantly reduced the amount of infiltration (leakage of groundwater) into the sewer systems and has resolved many sewer problems within the city which were caused by structurally deficient pipes.

The total cost of the above mentioned projects was approximately \$10,000,000 with ninety percent of the eligible costs being funded by the State and Federal governments.

This department is currently working with the engineering firm of Dufresne-Henry, Inc. of Springfield, Vermont in preparing the plans and specifications for another project involving the replacement or rehabilitation of an additional 13,000 linear feet of sewer lines. This work will also be funded in part by the State and Federal governments at 90% participation.

While the above mentioned projects have (and will) greatly reduce the amount of daily infiltration into the sewer mains, we are still faced with the serious problem of stormwater and snow melt entering the sewer system and being transported to and treated at the sewage treatment plant (at no small expense) due to the lack of separate storm sewers in most parts of the city.

This department is working with the State of Vermont to secure funding for the construction of additional storm sewers. We are entering the planning stage now.

The following are other projects the Engineering Division was involved with during the year:

- The extension of Haywood Avenue to Gray St. including extension of water mains and sanitary and storm sewer systems.
- Reconstruction of North Church St. from Tenny Brook to Field Avenue.
- Installation of a new 8" water main on Clark St. from Leonard St. to Temple St.
- Extension of storm sewer system on Hilltop Terrace.
- Replacement of the sanitary sewer main between Piedmont Drive East and Piedmont

Drive West.

- Extension of the storm sewer system on Irving Heights. Construction of storm sewer on Gleason Road. Extension of sanitary sewer on Stratton Road.
- Two hundred and ninety seven building permits were reviewed in connection with the Building Inspector's Office.

The Engineering staff consists of Warren Conner, Alan Shelvey and John Havens with the part time assistance of Arthur Courcelle.

STREETS DIVISION

Henry Monaco, Superintendent

Alan Bushee, Foreman

HOT MIX (BITUMINOUS CONCRETE) PAVING PROGRAM:

2180.13 tons of hot mix was placed by our contractor, Pike Industries, at a cost of \$63,703.10.

Streets paved (or portions of) were: Harrington Ave., Clematis Ave., Beldon Rd., Bellevue @ Temple, Lincoln @ Crescent, Clark @ Leonard, Clark @ Jeffords, East St., Perry Lane, Field Ave., Grove St., Robbins St., Harrison Ave. and Chestnut Ave.

The department installed approximately 368 feet of concrete curbing and 144 feet of concrete sidewalk.

SNOW AND ICE REMOVAL:

The winter of 1986 has a total accumulation of approximately 70½ inches of snow. A total of 1926 tons of salt were purchased costing \$67,060.16, as opposed to the previous year's amount of snowfall of 73 inches and the salt purchased of 2733 tons.

WASTEWATER COLLECTION

Paul Julius, Supervisor

Jim Ward, Foreman

The Wastewater Collection branch has moved into their new building located at the Wastewater Treatment Plant. During the past year, we have received a new one ton truck.

All major city sewer mains have been flushed and cleaned with the new Jet Vactor purchased the previous year. Also all catch basins within the city were flushed and cleaned.

The Wastewater Collection Branch in conjunction with other departments within the public works, have completed various other jobs including streets, sidewalks, water distribution systems and sewer systems. Along with these jobs, the Wastewater Collection branch also responded to countless emergencies in the sewer.

Some statistics of work completed for the 1986-87 year:

New catch basins installed	16
New manholes	6
Sewer main repairs/plugs	38
Sewer plugs private	73
Service connections installed/repaired	49
New sewer mains installed	0

EQUIPMENT MANAGEMENT

Robert Schembeck, Manager

Equipment Management became a separate Division within the D.P.W. during fiscal year 1987. Previously it had been part of the Streets and Sewer Division. This realignment recognizes that D.P.W. equipment can best be maintained and managed as a single entity.

Consolidating the various functions and responsibilities of maintenance inherent in operating a fleet this size is more cost effective. Over the past 12 months we have started to see some of the savings of money as well as an increase in the time the equipment is available.

This division is looking forward to increased savings and efficiency in F.Y. 88. The members, with the continued support of the Board of Aldermen and the Commissioner, will continue to improve their service to the D.P.W. internally, and the City of Rutland overall.

CITY FOREST AND CITY ORNAMENTAL TREES

David Richards, City Forester

The City Forester is in charge of all forestry work including management of the city's orna-

mental trees and the 4,000 acres of the city forest in the watershed.

The sale of all timber on the Rutland City Municipal Forest is carried out under approved watershed management practices to provide a regulated harvest of timber products and to protect and insure maximum sustained yields of usable water. Timber sales include sawlogs, firewood and pulpwood. Sales are marked out so as to improve the timber stand which remains while providing income for the City. Trees over 6" in diameter at breast height which do not promise to develop into sawtimber quality stems are removed. Large straight trees are left to become more valuable and to provide genetically superior seedlings.

During the fiscal year the following timber sales were sold to logging contractors:

Sawyer Brook Timber Sale—William Poczobut of Rutland for \$5,262.00

Lower Lime Kiln Timber Sale—Claude Dern of Dorset for \$5,692.00

Fisk Road Timber Sale—Claire Lathrop Band Mill, Inc. of Bristol for \$24,470.00

Also during the fiscal year "Twin Brooks Timber Sale" was put out to bid twice without receiving an acceptable bid. "Camp Road Firewood Sale" was put out to bid twice and no bids were received. The "Camp Road Firewood Sale" was given to the Rutland Area Vocational-Technical Center at no charge. The Vo-Tech school's forestry program uses the City Forest to train students in logging techniques.

The Ornamental Tree program maintains the beauty of the City by caring properly for our trees, replacing diseased or damaged trees, and adding new plantings. The effort includes removal of dead or dying trees, pruning and maintenance of healthy trees, and planting additional trees.

During the year, 54 trees were removed from along city streets. The cost of the removal amounted to about half of the tree budget. Central Vermont Public Service Corporation and New England Telephone helped pay for removal

if trees were a danger to their utility lines, or they helped remove storm-damaged trees where the lines are involved.

In an effort to help the Sugar Maples (our State tree) planted along city streets, we contracted with Vaillancourt Tree-Landscape Service, Inc. of Pittsford to fertilize 102 Sugar Maples. They drilled holes in the ground and put in fertilizer tablets. We want to do more of this next year.

In an effort to save some of the dwindling number of elm trees, we contracted with Trees Inc. of Rutland to treat (10) elms with arbotech to protect them from dutch elm disease.

During the year we continued with our basic maintenance program of removing deadwood, cabling for structural support, removing low hanging limbs for street and sidewalk clearance.

We planted 80 new trees on city streets: 30 Marshall Seedless Ash, 20 Flowering Crabapple, 13 Red Oak, 12 Red Maple, 5 European Mt. Ash.

WATER DISTRIBUTION DIVISION

Bruce Matt, Manager

Robert Harvey, Foreman

Comparative figures for the past three years' work programs are:

	1984-85	1985-86	1986-87
Main Extensions	284 ft.	1,150 ft.	567 ft.
New Hydrants	9	20	16
Hydrants Repaired	25	15	10
New Service Connections	40	27	26
Relay Services/Repairs	30	7	36
Curb Boxes	52	71	75
New Meters	129	217	106
Repair Mains	16	6	21
Install Valves	10	10	9
Replace Meters	26	84	53

Considerable water improvements were made on the So. Main St. Project in conjunction with Palazzi Corporation.

Rutland Recreation & Parks Department

John W. Cioffredi, Superintendent

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I respectfully submit our Annual Report of events and activities, sponsored by our Department for fiscal year ending June 30, 1987.

FACILITIES

Edwin W. Lawrence Recreation Center
86 Center St., Box 791/Phone #773-1822
Department Offices, Meeting Rooms, and Gymnasium

Senior Citizens Center
Off Deer St. Phone #773-1853
Meetings Rooms, Craft Room, Meal Site.
PARK AREA: Shuffleboard Courts, Horseshoe Pits, Gazabo & Picnic area.

Giogetti Athletic Complex
Located at Giorgetti Park
2 Basketball Courts, 2 Paddleball Cts.,
1 Baseball Field, 1 Softball Field, Nature trails,
& Ice Skating Rink.

Monsignor Connors Park — Meadow Street
2 Lighted Basketball Courts, 3 Lighted Tennis Courts, 1 Wading Pool, 2 Softball Fields, & Playground Equipment.

John W. Cioffredi Park — Off Temple St.
2 Softball Fields

White Memorial Park — Off Avenue B
Swimming & Wading Pools, Playground Equipment, 1 Ballfield, 5 Tennis Courts, 2 Platform Tennis Courts & 2 Basketball Courts.

Rotary Park — Off North Street
4 Tennis Courts, Fieldhouse, Playground Equipment, 2 Basketball Courts, Lighted Softball Field & 2 Handball Walls.

Mini Parks — Designed for Tiny Tots
Locations: Corner of River & Meadow Sts.
Corner of Madison & Prospect Sts.

Main St. Park — Center St./Route 7
Gazabo, Benches & Picnic Area

Center St. Alley Park — Downtown Waterfall, Benches & Picnic Area with Summer Concerts and Performances

Depot Park — Downtown Rutland
Bench area and Farmer's Market location on Wednesdays & Saturdays during summer.

YOUTH ACTIVITIES FOR FALL & WINTER

Arts & Crafts Corner	Grades K-5
Art I	Ages 6-9
Art II	Ages 10-15
Aerobics	Teens
After School, Extra-Extra	Grades 1-4
Babysitting Course	Ages 11-16
Ballet	Grades K-7

 Walk for Fitness
 Wine Appreciation Course

PROJECTS**Northeast BOR Project**

The Northeast Field Project is completed and opened in the spring of 1987, upon approval and certification by the Government. The Park officially has been named the John W. Ciofreddi Park as recommended by the Softball Association and approved by the Board of Aldermen on February 16, 1987.

White Park Improvements

The Pool Deck Restoration Project has also been completed. This Project was partially funded by Land and Water Conservation fund.

The White Park Stream Stabilization Project is presently under construction.

SENIOR PROGRAMS

The Rutland Recreation and Parks Department's, Senior Center, is an integral part of the City of Rutland Community. Located off Deer Street, the Center offers a wide selection of programs, services and activities for the older population.

The 1986/87 year proved to be a year of transition, with growing interest among residents in creative programs, educational and physical, as well as traditional programs of cards, bingo, etc.

The Rutland Senior Center serves as a meal site for the Area Office of Aging, Nutrition Program, and served an estimated 8,300 meals. Traditional Thanksgiving and Christmas Dinners are served in addition to the regular meals.

An estimated 44,800 men and women participated in programs sponsored through The Rutland Recreation and Parks Department's, Senior Center.

Walter Churchill Scott an active participant of the Center was selected as Senior of the Year, in Vermont, at the Annual Governor's Conference. He was selected for his help in establishing a hiking program.

**RECREATION PROGRAMS HELD
AT THE SENIOR CENTER**

Board of School Commissioners

Mrs. Carolyn Baker, President, Board of School Commissioners

Mr. Michael Caulin, Clerk

To the citizens of Rutland City:

This year the Superintendent and the School Board have made strong commitments to the following goals: Effective Schools, Project Team, and improving our facilities. We are looking forward to progress in all of these areas during the school year 1987-88.

Our greatest challenge continues to be finding a solution to improving the adequacy of our facilities. Many of our school buildings have been under maintained and the older buildings have inadequate classrooms for today's technology. We continue to be faced with constantly changing enrollment patterns which have caused overcrowding at the elementary level and overutilization at the secondary level. Until we are able to renovate our buildings and add additional classrooms, we will be unable to comply with the new state standards. Unfortunately if we do

not do this, we will see a reduction in our state aid as a penalty for not meeting those standards. We need to secure the passage of a Bond to pay for upgrading our buildings.

We, as a community, can be proud of our ability to work together in order to further educational goals. This past year has been one in which the School Board has had the opportunity to work closely with the Board of Aldermen on the revision of the Charter and the Mayor on increased state funding of education. Project Team is a drug and alcohol prevention program which has also involved many members of this community in working with school staff. The educational system is an integral part of the community and for us as a school board to represent your interests in the educational system we need your help and guidance. There is no

question that the quality of the schools impacts on the community and the community directs the quality of the educational system.

I feel positive about the future of education in the City of Rutland because I feel that this com-

munity is committed to a strong school system. We appreciate your support and guidance as we move to solve our facilities problems and build a strong educational program.

Department of Education

Charles P. Skiptunas, Superintendent

To the Citizens of Rutland City:

This marks the beginning of my second year of service as your Superintendent of Schools. This has been a most rewarding and industrious school year. I have had the opportunity to work with all members of our educational staff, and I would like you to know that you should be justifiably proud of having a professional staff in your city schools which is hard working, creative, caring and extremely competent. We continue to have our administrative team grow in experiences and competencies to the point where we are right now, in my opinion, in a most enviable position with the quality of individuals we have leading our schools. The Board of School Commissioners, which you have elected, has been particularly enjoyable to work with during this past year. It has been an environment where all have been working together for the same reasons and goals, to maintain and improve educational programs for our children.

The School Commissioners have been tireless in their efforts to serve you and, along the way, they have provided leadership in directing the School District right to the cutting edge of the educational research of this day. They have enacted policy to lead the schools into the Effective Schools Research and Practice. They have supported Project Team, a program designed to develop programs for prevention of alcohol and substance abuse for our school age children. They have also worked diligently to bring your School District in compliance with the Public School Approval mandates to which we all must adhere.

Through this process I am pleased to have you note this was done without a school budget

increase for this school year. As a matter of fact, the school budget reflected a moderate decrease. That should not mean we can anticipate that each year. It does indicate, however, that the prudent management of the School Commissioners and administrative team has served the best interests of our community.

We have a major task before us, to address, resolve and successfully pass the necessary resolution to improve our educational facilities. We are not talking about a frivolous investment. We are talking about a long range business commitment to insure stability in our city and to insure the future for generations still to come.

School is different now! Schools are doing a better job now than ever in the history of American public school education. Like all businesses, like all institutions, it is necessary to have the work place be an effective, cost efficient environment to make things better. I am confident that if we have done a thorough job of identifying specific areas, that you will support the efforts to have our community be a better place today and tomorrow. It is our goal to have you understand that we are running the schools in a cost effective manner and we are delivering educational services in a most efficient and productive fashion. Our educational programs are sound. Our educational programs will be maintained and improved.

I have no reason to make any apologies for what we are doing for your children. I feel proud of our programs and I think you can also feel justifiably proud of the direction in which we are going and will continue to go. Thank you for your support.

Rutland School Department

In accordance with Rutland City Board of Education Policies, a free appropriate public education for all handicapped children is guaranteed. If your child is handicapped, or you know of a handicapped school age child who is not currently being served, please contact the Pupil Personnel Office at 773-1917.

Rutland Historical Society

Eleanor J. Elwert, President

To the Honorable Mayor, Members of City Council and Citizens of Rutland:

It has almost become a habit — winning awards for our Quarterly — and we did it again this year with the winter issue, Vol. XVII No. 1 about the sculptor Aristide John Piccini. This was an award in the publications division of the Vermont Historical Society's annual competition.

Because the public is barred from our museum building due to its deteriorated condition we are not able to mount exhibits. Our energies go to membership meetings and publication work instead. The Newsletter, which is more informal and chatty, seems to be going to be a more permanent fixture than it has been up to now.

The 1986 Sing-along — intended to be an outdoor event — was rained into Christ the King auditorium.

The Annual Meeting, October 15, held at the Senior Citizens' Center, featured the recently appointed Director of the Vermont Historical Society, Michael Sherman. His topic was "Horns and Harmony — Music in Vermont Communities in the 19th Century".

On October 17th, and 18th West Rutland went all out to celebrate the centennial of its becoming a town separate from Rutland. A quarterly about the event, Vol. XVII No. 2 was published by the society.

The speaker Nov. 15 was Philip Elwert, curator of the Vermont Historical Society. "Out of Our Hands: Technology and Change in Vermont Decorative Arts, 1760-1920", was an outgrowth of a special project of Vermont Historical Society done in anticipation of the state's bicentennial in 1991.

On March 14 St. Patrick's Day was celebrated a little early at the Nella Grimm Fox Room of the Library with Robert Carter, Ph.D. of Castleton College who discussed the background of and sang Irish Folk songs.

May 2nd "The Vermont Housewife's Kitchen" with Lilian Baker Carlisle was a most appealing program. May 23rd one of our favorite speakers, Tom McDevitt, gave a slide program on "The Rutland Railroad during the Steam Age".

Dawn Hance continues work on our Rutland History book which we hope to complete in time for the city centennial celebration in November 1992. The genealogy volume is finished and the history up to 1860 is progressing apace, thanks to Mrs. Hance's dedication. The final two volumes are in need of researchers and writers, Anyone?

Regarding a move to Nickwackett Fire House so far we only have a list of what needs to be done as compiled by architect Clarence Whitney. Cost estimates are not yet ready.

Meanwhile only the most rudimentary accessioning and cataloguing can take place. We continue to receive requests for genealogical information and queries about restoring old houses. We are also represented on the new area Arts Coalition as well as the Vermont Museum and Gallery Alliance.

1987 being the Bicentennial of the U.S. Constitution has been duly noted and a Quarterly and special school observances have been proposed by Tom K. Egan.

Rutland Free Library Association, Inc.

Paula J. Baker, Director

To the Honorable Mayor, Members of City Council and Citizens of Rutland:

A respect for our past and a look to the future are the hallmarks of this celebratory year for the Rutland Free Library. Marking a century of public service on July 2, 1986 the library celebrated the event with a birthday party, a time capsule, fine forgiveness days and special visits from Governor Kunin, Senators Leahy and Stafford, Congressman Jeffords and Mayor Daley. Julia Dorr, founder and first librarian would have been very pleased to see the pride in and continued support for this important community resource.

Change, of course, is a part of a library's history, and this year brought a large one. Director Charles Maurer retired in December after 23 years. In the six month interim librarians Carol Chatfield and Jacob Sherman led the staff until my arrival on July 6, 1987.

During this year of change library activities continued at a furious pace. Constitutional debaters, history buffs with walking shoes, readers wanting to talk, concert performers and concert goers, mime and theatre people, puppets,

pajama-clad children, doctors and would-be scientists all found a place at the library through multiple series of programs which reached over 12,000 people. In addition, registered borrowers increased by 10% and the circulation of materials climbed 5%. It was *not* a quiet year . . . Julia would have been pleased.

The future, of course, is built on the past. The library is a landmark, housed in a distinguished historic building and housing a rich collection of materials gathered by librarians over the years. A good staff and a dedicated board are providing the opportunity for planned growth into new arenas of library services for Rutland area residents. In the course of the next year we will lay out the paths for increased reference capabilities, improved access for the handicapped, an expanded interlibrary loan function, and an attempt to reach invisible users like the homebound elderly and adult non-readers. Our commitment to extending what Julia Dorr started, a library dedicated to its community's needs, is strong and very much ready for the second 100.

Rutland County Solid Waste District

Annual Report 1986

James A. Dohrman, District Manager

Benson, Castleton, Chittenden, Clarendon, Danby, Fair Haven, Hubbardton, Ira, Mendon, Middletown Springs, Mt. Holly, Mt. Tabor, Pittsfield, Pittsford, Poultney, Proctor, Rutland City, Sherburne, Shrewsbury, Sudbury, Tinmouth, Wallingford, Wells, West Haven, West Rutland

INTRODUCTION

After eight years of planning, reports, studies, meetings and countless hours of negotiations, the District is finally seeing concrete results of its efforts. Although some excavation and site work occurred in late 1985, the first real signs of construction began in late February with the pouring of the first concrete footings. Work on the plant continued at a steady pace throughout 1986.

CONSTRUCTION ACTIVITIES

Following the pouring of concrete footings in February and March the outline of the building began to take shape with the construction of the tipping floor walls in April and May. The initial portions of the primary combustion furnaces arrived in June and were quickly erected within the completed concrete foundation.

The construction pace increased during July and August with the work force expanding to 40 to 50 workers. Structural steel for the main building was erected in July and roof and siding panels followed in August and September. The boilers arrived by railroad flat cars in mid-October and by November 1 both boilers were moved into the building to their final locations.

Installation of the electrostatic precipitators began in December. Following their completion in January, the roof and eastern side of the building will be completed so that internal work can continue throughout the winter. This work will include the remainder of the pollution control equipment.

Although some delays have been encountered due to revisions to the air quality permit, a fall 1987 completion date is still anticipated.

DISTRICT ADMINISTRATION

The annual organizational meeting held in mid-April included ten new members to the

Board of Supervisors. This was the largest turnover of Supervisors in recent years. David Lewis and Warren McCullough were re-elected to the Chairman and Vice Chairman positions. Two new members were added to the Executive Board.

One of the departing Board members was Robert Stafford, one of the original charter Supervisors from the City of Rutland. On June 18, 1986 Bob was presented with a resolution of appreciation for his seven years of dedicated service to the Solid Waste District. His unselfish contribution of time and resources will be missed.

Several new committees were initiated in 1986 to review key issues prior to action by the Board of Supervisors. These included an Environmental Committee to continue assessing programs for household hazardous waste collection, a Contract Committee to review all contractual obligations of the District, a Staffing Committee to address future management needs of the District and a Baseline Monitoring Committee to consider evaluation of baseline environmental conditions prior to plant operation. All committees were active in 1986 and their efforts were appreciated by the Board.

In June of 1986 the District was notified by Nixon, Hargrave, Devans and Doyle that they were resigning as the District's special counsel. After an evaluation of qualified firms, Ropes & Gray of Boston was retained to act as the District's special counsel for future contractual matters.

AIR QUALITY PERMIT

The project had been notified in April of 1985 that the Agency of Environmental Conservation would be revising its air quality permit to require acid gas control devices. Seventeen months later, after lengthy state reviews and two hearings, the Agency finally issued its revised permit on September 11, 1986. In addition

to the acid gas control measures, the new permit revised several emission limits including dioxin/furans and carbon monoxide. The new monitoring and reporting procedures will insure a safe, efficiently operated plant.

PSB PROCEEDINGS

The closing months of 1986 saw two issues brought before the Public Service Board which could have a significant impact on our project. The first issue was the 1987 rate case for Central Vermont Public Service Corporation. This rate case included the contract between Vicon and Central Vermont which established the rates to be paid by CVPS for the electricity produced by the Vicon plant. The rate schedule which averages 12.02 cents per kilowatt hour is being challenged by various environmental and public interest groups. The PSB ruling is anticipated in early 1987.

In addition to the rate case, the PSB has received a petition to reconsider the certificate of public good (248 permit) on the grounds of substantial change. Formal petitions will be received in mid-January with a pre-hearing conference scheduled for early February.

1987 BUDGET

The budget for 1987 was initially adopted by the Board of Supervisors at their December 17, 1986 meeting. This earlier action was overturned at the January 14, 1987 meeting which reduced the budget from \$139,800 to \$114,800. The new budget eliminated the proposed project coordinator position which was to assist the District in pursuing recycling opportunities,

household hazardous waste programs and an inventory of the District's commercial and industrial waste.

The 1987 budget continues to include substantial line items for legal and engineering consultants. These services will be necessary as the District concludes its negotiations with Vicon for construction change-orders.

HOUSEHOLD HAZARDOUS WASTE COLLECTION

The District implemented a new program in 1986 with a household hazardous waste collection day on May 10. This program included both education and physical collection of those household materials which may cause a problem if disposed of improperly. The District hopes to continue this program in future years, along with an inventory of commercial and industrial waste generators using the Vicon plant.

LOOKING AHEAD TO 1987

Construction activity will continue throughout the winter with the installation of the electrical/mechanical equipment and various internal structures. The last major piece of equipment, the turbine-generator will arrive on-site in June and by the end of July or August the project will begin testing the various facility components.

The 1986 fiscal year is ending with several important unresolved issues. These include the additional capital and operating costs for the plant's pollution control equipment and the Public Service Board's certificate of public good which is being challenged. Based on current contract provisions these issues may result in exposure to increased disposal costs.

1987 Town Assessments

"Taxes shall be apportioned among member municipalities on the basis of relative tonnage or volume of solid waste loads generated by or within each of the member municipalities such that each member municipality shall be assessed a percentage of the sum appropriated equal to the percentage which its solid waste load bears to the total solid waste generated within the district." (RCSWD Agreement Article IV Subsection 2.c)

The Board of Supervisors has adopted the following assessment percentages in accordance with the District Agreement using solid waste generation estimates developed by the District's consultants, Franklin Associates Ltd., in September 1980.

	1980 Estimated Yearly Tonnage of Solid Waste Tons/Yr	Percentage of Total Tonnage & Assessment	Actual 1986	Assessment 1987
Benson	120	.0039116	193.00	231.14

Regional Ambulance Service, Inc.

David Melen, President

To the Honorable City Council and the Citizens of Rutland City:

During Regional's fourth fiscal year the service responded to 3239 calls, an increase of 412 calls over the previous year. There has been an increased demand for our services each year since we began operation in 1983.

Although the budget for 1987-1988 has increased substantially due to inflation and soaring insurance costs the assessments for the member communities have not increased.

There are several reasons for being able to control the assessments at the same level the past two years and again for the third year. The first is our very able Administrator, Jr. James A. Finger. A membership program that not only provides additional income but provides savings to the individual member should the need for ambulance service be required. The financial records and other operating functions are being computerized and very near completion. Finally the complete support of our professional staff has added to our financial stability.

As part of the program to provide a cost ef-

fective and reliable service a new ambulance was purchased and another new replacement ambulance is scheduled for 1987-1988 through a depreciation fund set up in our accounting practices. We began construction of additional office and living space with very generous support from local contractors, businesses and dedicated employees. We would like to thank everyone in our coverage area for their continued support.

These and other projects were implemented to provide the citizens of Rutland City with the best cost efficient ambulance service we can provide. We did request the same assessment for the next fiscal years operating expenses. The Rutland city voters overwhelmingly approved this request. We would like to thank the voters and we are proud to continue serving the citizens of Rutland. The Board of Directors and the Administration of Regional Ambulance Service, Inc. will continue to strive to provide the highest quality emergency ambulance care at the lowest possible cost to all of the citizens served.

Rutland Regional Commission

Kevin Mullin, Regional Commissioner

To the Honorable City Council and the Citizens of the City of Rutland:

The past year has been challenging and active. The Rutland Regional Commission has continued a variety of programs to help you find new ways to do more with increasingly limited financial resources. These efforts will become increasingly important as Rutland Region communities begin to feel the effects of the loss of General Revenue Sharing.

THIS YEAR THE RUTLAND REGIONAL COMMISSION:

- continued a very successful cooperative purchasing program for fuels that has saved member communities substantial amounts on their fuel oil, diesel, and gasoline purchases. In many cases the savings exceeded the community's Regional Commission assessment;
- served as a means for local governments to discuss and solve common problems;
- worked to resolve some of the Region's transportation problems;
- conducted the annual Roger Brown Memorial Award for Outstanding Development program with awards to projects in Fair Haven, Wallingford, and Sherburne;
- used our access to national networking systems to give you answers to questions on planning, zoning and local management issues;
- provided workshops for zoning administrators and planning commissioners;
- completed a Regional Retail Market Analysis to generate base-line information on the capacity of the region to absorb certain kinds of retail space over the next five years based on the probable growth in population, income and employment;
- continued to develop the capacity to provide more comprehensive transportation planning assistance to member communities;
- worked on the update of the Rutland Regional General Plan to make it more useful to communities in local planning and growth management programs and in the Act 250 process;
- represented Rutland Region interests with state agencies and policy boards;
- started publication of the *Data Brief* a data analysis quarterly.

THIS YEAR THE RUTLAND REGIONAL COMMISSION

- invited you to join our cooperative fuel purchasing program; together participating towns saved over \$9,000 in 1986; although the City was not an actual participant, as a result of the bidding process used by the Commission, the City was able to reduce the amount that it paid for fuel oils;
- prepared a complete rewrite of the Flood Hazard Area Zoning Regulations;
- assisted in the preparation of grant applications for state Community Development Program funds;
- met with local officials to discuss and get comments on the proposed *Rutland Region General Plan*;
- answered questions from local officials and citizens on various planning and zoning issues;
- assisted in the administration of the Rutland West Neighborhood Housing Services program.

NEXT YEAR THE RUTLAND REGIONAL COMMISSION WILL:

- * expand our cooperative purchasing program to save member communities even more;
- * develop new programs, funding sources and staff abilities to provide more and better services which help communities effectively deal with the loss of General Revenue Sharing;
- * hold workshops and training sessions for local planning commissions and zoning boards;
- * expand our information resources and computer assistance to give you the data needed to make informed decisions on local planning and management issues;
- * actively participate in state programs dealing with growth management and land use to insure that the needs and concerns of the Rutland Region are understood and addressed;
- * continue to be a forum for regional problem solving and help to develop solutions to regional issues.

Please join us in these efforts.

Community Council of Rutland, Vermont for Patriotic Observances 1987-1992

Thomas Kieran Egan, Bicentennial Chairman

To the Honorable Mayor, City Council and Citizens of the City of Rutland:

January 15, 1987: Answering invitations to form an organizing committee, twenty four community leaders gathered in City Hall Chambers. Agreement was reached that Rutland would be involved in the four-year honor to our U.S. Constitution from 1987 to 1991, the 200th Anniversary of Vermont's Statehood in 1991, the 100th Anniversary of the City of Rutland in 1992.

It was voted that application be submitted to the nation's capital for Rutland to be declared a "Bicentennial City"; later, we were the first city in Vermont to receive this designation.

It was the consensus that, while there would be respect paid to the past, our youth would be invited in the thrust of events wherever and as much as possible.

The following were approved as Executive Committee: The Mayor, ex-officio, Tom Kieran Egan, Chairman, Eleanor Elwert of the Rutland Historical Society and John B Weber, Esq. of the Vermont Bar Association.

May 1: During Law Day ceremonies at Rutland Superior Court, Judge Silvio Valente arranged the showing of a video film on the U.S. Constitution.

May 3: For the Loyalty Day Parade, Veterans of Foreign Wars announced two themes — 100 years of Mount Saint Joseph and 200 years of U.S. Constitution.

As the wind-up unit of the parade, a mixed team of Mt. Saint Joseph and Rutland High School students, wearing tricorne hats, marched behind the Constitution's "We, the People . . ." banner.

May 6: Nella Grimm Fox Room at our Rutland Free Library was the site for the last of the nine Constitution Bicentennial events held there. It was a debate on one pertinent aspect. Earlier, there had been six lectures/discussions, a play, a concert — arranged through Carolyn Meub, Program Director.

May 20: At a meeting of the Executive Committee, with several of the general members present, specific details leading up to mid-September were worked out. For example, Rev. David Dean agreed to coordinate bell ringing and other religious patriotic observances in the area.

May 29-30: Your Chairman represented our city at the New England Regional Training Conference in Boston, hosted by former Chief Justice Warren Burger. With our own organizational groundwork already done before Rutland schools had closed, it was interesting to listen to Washington's experts introduce projects that couldn't peak just as schools would reopen. During state caucus, it was noticed by Vermont participants that ours was the only state not represented by a member of the State commission or State government.

From this conference, and bulletins received from Washington, it was apparent that the Rutland program was more appropriate, with wider and deeper involvement than anything reported from elsewhere.

June 6: Judges announced the winners in poster competition based on the theme, "OUR CONSTITUTION'S 200th BIRTHDAY." Hundreds, from the Upper and Lower Houses of Rutland High School participated.

July 31: At the 5th Annual SING-ALONG in Center Street Alley sponsored by the Rutland Historical Society, copies of the Preamble and Bill of Rights were distributed to all participants. Later, hundreds of men and women performed the stirring ritual of an antiphonal reading of the First Ten Amendments. All joined in the concluding statement that this Bill of Rights was adopted the same year (1791) that Vermont became the 14th State of the Union.

September 1: Rutland Historical Society members began the mass mailing of hundreds of

copies of the special edition *QUARTERLY* honoring Vermont and the Bicentennial of the Constitution. It is called "Two Rivers of History — America and Vermont 1775-1791". Their flow begins on the same date, May 10, 1775, when the second Continental Congress convened by the America River while Fort Ticonderoga was captured by the Vermont River. The book ends showing the two rivers coming together in 1791 as the Republic of Vermont ended its 14 year existence.

September 2-3: Teams of students from Christ the King Junior High began the "WE, THE PEOPLE . . ." Student Project of Rutland, VT, Schools" that had no equal anywhere in the United States.

After marching from school to the Federal Building on West Street, each group of young people made use of a large "WE, THE PEOPLE . . ." banner and eleven tri-corn hats held for them behind the Post Office counter. Forming two ranks behind the banner, their captain took a position out front. After a reading of the Preamble, different students stepped forward and read one of the First 10 Amendments. The captain then read the closing statement and arranged the collection of the banner and hats for the next team. And, following their flag-bearer, they marched back to school. It was a simple, pertinent ritual that impressed many onlookers.

September 4-9: Students from Mount Saint Joseph Academy continued "WE, THE PEOPLE . . ." Student Project" mornings and afternoons.

September 5-13: At Rutland's Vermont State Fair, ceremonies, similar to the students' "WE, THE PEOPLE . . ." ritual, were arranged for 5,000 grandstand spectators before each of six show performances. To answer this large challenge, a local printer donated 30,000 copies of the necessary reading material. Volunteers distributed them. On stage, beside the large "WE, THE PEOPLE" banner, stood the new Rutland City flag and the flags of our State and the Nation. The following were the Volunteer Leaders for the ladies in the audience: Acting Mayor Patricia Donnelly; Sr. Rita Emerson, SSJ, School Principal; Rita McCaffrey, National Mother of the Year; Jean Ross, Managing Editor of the Rutland Historical Society *QUARTERLY*; Dorothy

Plue, Assistant Judge, Rutland Superior Court; Marion Ferguson, Executive Secretary, Rutland County Bar Association. Leading men were: Vermont's Congressman Jim Jeffords; Judge Francis McCaffrey; John B. Webber, President of Vermont Bar Association; Kenneth B. Shaw, Rutland Veterans Council; J. Fred Carbine, Jr., President of Rutland County Bar Association.

When 5,000 people stood for the singing of "God Bless America", it was evident, before letters arrived, that this was well-received. Indeed, even one rain-out had the positive effect of making many copies of the reading material available for later uses.

September 10-17: Students from Rutland High School, Lower and Upper Houses, continued "WE, THE PEOPLE Student Project". By this time there was so much momentum that some teams were larger than eleven; indeed, some teams arrived before the earlier one had finished. And, as a praising employee of the Post Office wrote to the newspaper, one team arrived, without a teacher or the usual photographer, and performed the patriotic ritual as stirringly as all the others.

September 16: For this date, "A Celebration of Citizenship" was planned on national and state levels to "reach out to every school in the United States . . . 110,000 schools and 66 million students, teachers and administrators." Except where our students were marching and reading that day too, our committee did not get in the way of this massive program, nor had any part in the way it turned out.

September 17: Because this is the date the Constitution was signed 200 years earlier many events climaxed together. Some are mentioned here in time sequence.

12 Noon: Rutland School busses brought children from Northeast School to Center Street Alley where a Bicentennial Buffet was served. Hundreds of cupcakes had small American Flags; balloons matched red-white-blue clothing. It was a festive gathering. After lunch, the youngsters formed a long double-line and marched to the flag pole near Merchants Row. While a color-guard from the Rutland Veterans Council gave a military salute, the "WE, THE PEOPLE . . ." flag was raised after Mayor Jeffrey Wennberg finished reading

the Preamble to the Constitution. At this point, the school children released their balloons to the sky.

2 PM: Children from Christ the King school formed in the school yard and, following flags and the "WE, THE PEOPLE . . ." banner, marched to the church for a special Thanksgiving ceremony. Boy and Girl Scouts held flags and the banner on the altar, while other school children took turns leading their schoolmates in prayers and songs printed for this special occasion.

4 PM: All churchbells in the city rang for 200 seconds for all to pause and reflect on our blessings to live under the freedoms of our Constitution.

7 PM: The Rutland City Band — "Oldest Municipal Band in the Nation" gave a concert of patriotic music in Federal Park. Some college students came home to play for this event. The band's standing rendition of our "Star Spangled Banner" was a fitting climax to a full day of honor.

We were invited, by the Bicentennial Commission in Washington, to submit photographs of our patriotic ceremonies. Some might be selected for a book to be published; all submitted would be stored for archival purposes for future generations. At this end, the situation is as follows: We have the negatives and contact prints of hundreds of views of most of the activity described in this report. Because the cost would be prohibitive to enlarge all these photographs, a limited selection was made and, after label and album process, they were sent to the nation's capital. However, a second set of these 5×7 enlargements has been retained here. With all negatives, programs and other pertinent material, a complete record and resource will be available through our own Rutland Historical Society. To illustrate: if a student's parent — or a member of the band — wants the enlargement of a certain print, it can be arranged locally.

This report should not close without tribute to the principals, teachers and, above all, the students who made "WE, THE PEOPLE . . . STUDENT PROJECT of RUTLAND, VT, SCHOOLS" such a splendid, majestic exercise in Americanism. Our city stands taller because of them.

Cemetery Commissioners' Report

Dawn D. Hance, Chairperson

To the Honorable City Council and Citizens of the City of Rutland

In the fall of 1986 we held an organizational meeting to discuss the condition of the North Main and West Street Cemeteries and to set certain goals for their maintenance and restoration. We all agreed that the cemeteries were in a deplorable state; broken gravestones and fallen tree branches littered the areas and insufficient mowing had added to their neglected appearance. We resolved to make these early burying grounds a credit to this City.

In the summer of 1986 the Board of Aldermen voted to erect a chain link fence around both cemeteries. However, due to overbidding and altering of specifications, the fencing, contracted to Len Catellier, was not put in place until the following summer. It was decided to lock the cemetery gates and deposit the keys at the police station where they can be signed for. Hopefully, this will discourage vandalism and, at the same time, will not deny anyone access since the station is open twenty-four hours a day.

The mowing contract went out to bid this year. Robert Mayo, the lowest bidder at \$1,040 is doing a fine job keeping the grass cut.

State law mandates that old cemeteries must be fenced and the gravestones kept in repair. Since restoration is a costly procedure we are aiming for a three year period in which to com-

plete the repair and resetting of stones. North Main Street Cemetery, in use since about 1786, and officially deeded to the town in 1800 by William Barr, needs the least attention. However, the table-like monument erected by the Masons in 1800 to the memory of Hon. Samuel Williams who was co-founder of the Rutland Herald, largely responsible for the acquisition of Main Street Park and referred to as the father of this village, has toppled to the ground. Grace Congregational Church, which is celebrating its bicentennial, commissioned an historic sites marker to be placed in front of the cemetery (the first East Parish Meeting House stood immediately south).

West Street Cemetery, in use since 1817, needs a great amount of work. A large number of the headstones lie broken and flat on the ground. Governor Israel Smith's stone is no exception. Many of the flagholders marking revolutionary and Civil War veterans' graves are missing and a half dozen dead elm trees threaten the stones that remain intact.

Hopefully, about \$3,000 will be expended on stone repair in the next fiscal year. However, another \$5,000 will be needed to complete the project. Donations, made payable to the City Treasurer, will gratefully be accepted.

Committee for Accessibility Improvements in Rutland

David Sagi, Chairman

To the Honorable City Council and Citizens of the City of Rutland:

This mayoral appointed committee, a cross section of the Rutland community, was formed in 1983 as a result of the newly issued federal revenue sharing regulations. Monthly meetings were conducted to evaluate the accessibility of all city buildings, walkways, and programs, and recommendations were cited, initiating a two year transition period to bring the delinquent facilities and programs into federal compliance.

Some of the more visible changes that have been incorporated are: the new City Hall renovations which made all city offices accessible to the public and opened the employment door for mobility impaired individuals, the integrated ramp and accessible bath rooms at the Rutland Library, improved ramp at the Lawrence Recre-

ation Center, downtown curb cuts at key intersections with audio signals where necessary, and TTY's were placed in both the Library and City Hall for the deaf and hearing impaired citizens of Rutland.

The committee has also created a new program to recognize those area businesses who have made their establishments accessible to persons with disabilities. A uniquely designed decal was developed by the committee and will be awarded to area businesses along with a public notice acclaiming their barrier free design.

Another facet of C.A.I.R. is to work with the Building and Zoning Administrator to review new building permits and be available for technical assistance to the general public.

Southwestern Vermont Area Agency on Aging

John G. Campbell, Executive Director

To the Honorable City Council and Citizens of the City of Rutland:

The Southwestern Vermont Area Agency on Aging serves elders in Bennington and Rutland Counties who are aged 60 or older. Among the services available to Rutland City elders are home delivered and congregate meals, senior advocate assistance with benefits, fuel and tax assistance, information and referral, residential in-home day care through the Home for Supper Program, Long-term care ombudsman services for residents of nursing homes and residential care facilities and contracted services through programs such as "One-2-One," which is sponsored by the Rutland Mental Health Services. The Area Agency on Aging also conducts periodic public forums on issues of vital concern to area elders such as the Medicare Speakout held at the Bardwell House in February 1987.

For the period July 1986 through June 1987, meals were served to 266 city residents at the three mealsites located at the Bardwell House, Sheldon Towers senior housing and the Rutland Senior Center. A total of 194 city residents received home delivered meals. Senior advocate staff assisted 424 city residents. One of the services often provided is tax assistance. According to SVAAA records, a total of 173 city residents

were assisted and services we provided enabled them to recoup a total of \$20,973.

A total of \$270,000 or nearly one fourth of the entire agency budget for 1987 went toward serving Rutland City elders. The City voters have generously supported the elder service agencies, R.S.V.P., One-2-One and the Area Agency on Aging with \$24,900 in appropriations voted in March of 1987. Of this amount, \$16,000 goes to support Southwestern Vermont Area Agency on Aging programs including home-delivered meals and senior advocate services.

There are over 4000 elders, aged 60 and older in Rutland City. As with many cities, the proportion of elders is higher than for the surrounding area. The proportion of city elders over age 75 is also higher than in surrounding towns. As the population ages and more older people needing assistance are concentrated within the City limits, we feel we can continue to meet the challenge of serving them with the continued generous support of the voters of the City (State and federal funding is expected to continue at approximately the same level through 1989.)

Retired Senior Volunteer Program (R.S.V.P.)

Ann Rowe, Director

To the Honorable City Council and Citizens of the City of Rutland:

The Retired Senior Volunteer Program (RSVP) was established nationally in 1971, to provide opportunities for retired persons 60+ to participate more fully in their community through significant volunteer service.

Since 1973, RSVP volunteers have been actively involved in Rutland County helping to fill unmet needs of agencies experiencing diminishing funds while having to continue to provide services.

RSVP recognizes the importance of remaining active in later years. Currently there are 363 RSVP volunteers working in our program. In 1985, they contributed 63,116 hours of service to agencies throughout the county.

Most of our volunteers live and work in agencies in the City of Rutland. There are 202 Rutland City RSVP volunteers who donated 34,969 hours to 59 agencies in the City in 1986. Some of the areas in which they volunteer are: Rutland Regional Medical Center, Rutland Vocational School, Open Door Mission, State's Attorney, Hospice, Beverly Manor, Eden Park, Pleasant Manor, Chamber of Commerce, United Way, One-2-One Program, Rutland City Police Department, Art-in-the-Park, Guardian-ad-Litem,

Rutland Diversion Program, American Red Cross, Southwestern Vermont Area Agency on Aging Nutrition Project, Rutland Area Visiting Nurses Association, Rutland Free Library, Headstart Program, Rutland Senior Chorus, Public Access TV, Salvation Army, Vermont Achievement Center. The cost benefit to Rutland City, translated into dollars at minimum wage, amounted to \$117,146.15. Many RSVP residents from surrounding towns also volunteer in the city, thereby providing additional local support.

RSVP volunteers impact on the quality of life of *all* age groups in Rutland City. They are an excellent resource for our community for they bring a lifetime of skills and experiences, plus the willingness to share their time, talents and energies with others. RSVP volunteers care about Rutland and the people who live here and want to be of help.

We would like to acknowledge and thank the voters of Rutland City who have shown their concern and support for RSVP and pledge our continued efforts to be of service to the citizens. For more information about RSVP please call 775-8220.

One-2-One Program

Maria Fish, Director

To the Honorable City Council and the Citizens of the City of Rutland:

One-2-One is a program designed to serve frail elders. The program helps these individuals maintain their independent living status by providing essential volunteer support in three major areas: Telephone Reassurance, Friendly Visiting and Transportation Assistance.

Telephone Reassurance provides a daily phone contact at a mutually agreed upon time to an elder living alone. Over 9,000 telephone contacts were made to Rutland City elders.

Friendly Visiting helps provide emotional and practical support to elders needing this type of assistance. Visits are scheduled on a weekly, bi-weekly or monthly basis. The visits help diffuse the loneliness felt by elders. Over 600 visits were made to Rutland City elders.

Essential Transportation rides are offered to elderly persons in need of transportation to and from medical appointments and/or help with grocery shopping. Over 1300 trips were made for Rutland City Elders.

Rutland Area Visiting Nurse Association

Evelyn Doyle, Executive Director

To the Honorable Mayor Wennberg, City Council and the people of Rutland City:

Thank you for your continued support of the Rutland Area Visiting Nurse Association.

The Home Care services that were provided to City patients are as follows:

Unduplicated patients	843
Skilled Nursing	7111 visits
Physical Therapy	2708 visits
Speech Therapy	21 visits
Occupational Therapy	429 visits
Home Health Aide	6621 visits
Homemaker	4407 visits

Our goal continues to be to provide quality Home Care services so people may remain in their own homes as long as possible.

Other services that the RAVNA provides are:

PreNatal Classes	82 couples attended
Clinic Services	584 unduplicated people served

Public Hypertension &

Cholesterol Screenings 1900 screened

Preventive Health Services Health Program for
Industry and
Business

Our Agency continues to make every effort to diversify and meet the changing health needs of our communities. Our thanks go out to all of the people of Rutland City that supported our funding request. This allows us to continue to help keep people out of institutions; giving the elderly, frail and handicapped the opportunity to remain at home, giving them a choice of health care.

If you would like more information on RAVNA services, please call 775-0568.

It is always a pleasure to serve you.

UVM Extension Service

Rutland County

To the Honorable City Council and the Citizens of the City of Rutland:

The UVM Extension Service in Rutland County is part of a larger educational effort across the United States and Vermont. Three levels of government, federal (40%), state (50%) and local (10%) cooperate to finance this system. Local funding is based on the town Grand List as compared to the County Grand List. State statutes are the basis for town contribution.

The Extension Service is a continuing educational process, providing programs for farmers and businesses, families and community groups, throughout Rutland County. Our programs are specifically designed to assist local people in reaching desirable economic, health related social goals that they set for themselves. Our aim is to respond to local needs as defined by local people and our program direction and content is monitored by a local Extension Advisory Board. Members of this committee are elected by county residents at the annual meeting held in April. The meeting is open to the public.

Extension programs mean different things to different people.

- The homeowner finds help with energy conservation, home gardening and lawn care, and answers to insect problems. . .
- The homemaker learns to prepare nutritious, appealing meals on a limited budget, to manage money resourcefully, and to cope with the many demands on today's family. . .
- Youth learn to ride an ATV safely or how to purchase, prepare and store food products, or how to take responsibility for the care and development of a cow, horse, or dog. . .
- A small business person gets management assistance to help reduce risk of failure and increase profits. . .

- and farmers, with new research information and management advice, continue to provide quality food products at a reasonable cost in tough economic and transitional times.

RUTLAND COUNTY EXTENSION SERVICE STAFF:

County Extension Agents:

Bridget H. Bowen, Agriculture
Margaret R. Andrews, Home Economics
Linda D. Aines, Resource & Small Bus. Dev.
Youth/4-H Prog. Assistant: Ardith Fenton
Nutrition Aide: Marie Bingham
Admin. Assistant: Valeria D. Nagy
Secretaries: Elizabeth Pratt, Laura Rotella

List of Unpaid Taxes as of 6/30/87

The list of unpaid taxes is as it appears on the records of the City of Rutland as of 6/30/87 pursuant to 1 V.S.A. Chapter 5 Sub-Chapter 3.

Persons listed are the owner of record as of 4/1 of the year preceding the tax year shown. Subsequent to the date are taxes that are delinquent. The City realizes that transfers may have occurred subsequent to 4/1 and that taxes be-

came due and delinquent and such listed individuals may not be responsible for the amounts indicated.

Amounts shown are taxes only exclusive of interest & penalties.

Legend: A—up for abatement, P—payments being made. *—Paid after 6/30/87.
